

Traumatic Neurosurgery Consult Guideline:

- **No Consult necessary:**
 - Nondepressed skull fracture without intracranial abnormality
- **Neurosurgery Consult necessary:**
 - Subdural/Epidural Hematoma > 5 mm, or midline shift, or hydrocephalus
 - Cerebral IPHs > 4 mm, midline shift, or IVH, or obstruction/hydrocephalus
 - Traumatic SAH with mass effect, diffuse in nature, or midline shift
- All lesions that do not meet these criteria should be directed to the Trauma Service
- This protocol is only a guideline for care. Any ongoing concerns should necessitate a neurosurgical consult
